PROJECTS

House-Search

08/2023 - 09/2023   Nyeri

Short summary of your work
- Managed to implement some context API in React.Js to display all the content. This website enables you to choose a suitable house for yourself at your favourable prices
- Live URL:https://davidmurage.github.io/house-react/
- GitHub URL:https://github.com/davidmurage/house-react.git

Shopping-Cart

07/2023 - 07/2023   Nyeri

Short summary of your work
- The aim of the website was to create a working add to cart website, where customers would choose the items they want to buy and would add them to the website cart for easier items tracing.
- The website is designed using React.Js
- Live URL:https://davidmurage.github.io/react-shopping-cart/
- GitHub URL:https://github.com/davidmurage/react-shopping-cart.git

Multi-Step-Form

09/2023 - 09/2023   Nyeri

Short summary of your work
- Aim was to enable steps to work accordingly. Ie while filling your details for a subscription.
- Developed using HTML/CSS/JAVASCRIPT
- Live URL:https://davidmurage.github.io/multi-step-form/
- GitHub URL:https://github.com/davidmurage/multi-step-form.git

SUMMARY

I am a skilled Frontend Developer with a passion for creating engaging and user-friendly web experiences. I have a deep understanding of web technologies, including HTML, CSS, and JavaScript, along with proficiency in modern frontend framework React.js. My expertise extends to responsive design, cross-browser compatibility, and performance optimization, ensuring seamless user interactions on various devices. I am adept at collaborating with cross-functional teams, translating design concepts into pixel-perfect interfaces, and continuously staying updated on emerging web development trends. Committed to delivering visually stunning and highly functional websites, I thrive in dynamic environments and am dedicated to providing an exceptional user experience.
